DETAILED ACTION***Claim Rejections - 35 USC § 103***

Claims 1-9, 14, 15, 17, 18 and 22-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allen 2001/0015529 in view of Beltran and further in view of Astaneha.

As set forth in the previous office action Allen shows displaying cards from a standard deck (In. 1 of Abstract, recording a bet ([0019], In. 9), drawing at random ([0063], In. 1), calculating a payout from his TABLE 3.

From fig. 1, Allen shows a 4x12 grid of 48 gaming bets as required by claim 2. As to claims 3-7, fig. 1 show bets with respect to ranges, color, parity and suit. As to claims 8 and 9, the "high" and "low" bets are considered to be recording a securing bet. Whereas to claims 14, 15, 17, 18 and 27, the King cards of Allen were considered "outside cards" in which all bets lose when the card is drawn, Astaneha teaches adding "all lose" indicia to the possibilities of random selection in a game like Allen in order to add a negative advantage for the players. Missing from Allen on his layout is the king indicia from the deck of cards since the amended claims now calls for each card to be displayed on the layout. Beltran teaches in roulette type card games such as Allen that it would have been obvious to have displayed all the indicia on available in the deck of cards on the layout in order to allow a player to wager on every card in the deck.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 16 and 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allen in view of Beltran and Astaneha and further in view of Baker for the reasons set forth in the grounds for rejection set forth above and in the previous office action.

Conclusion

Applicant's arguments with respect to claims 1-27 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3711

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
